PROFILE

- Research assistant of **The Hong Kong Polytechnic University**.
- Bachelor and research assistant of **Peking University**.
- Strong interest in natural language processing, applied and theoretical machine learning.
- Hard-working and self-discipline.

EXPERIENCE

- **Research Assistant**, Prof. Wenjie Li   Aug 2014 - Present
  Hierarchical knowledge representation and character to document representation.
- **Research Assistant**, Prof. Sujian Li   Dec 2012 - July 2014
  Fine-grained authorship attribution and hierarchical topic modeling.
- **Research Intern**, Dr. Chin-Yew Lin   March 2013 - Dec 2013
  Named entity recognition and relation extraction on Bing search log, Weibo, Renlifang and Satori data for Bing Score Project.

LEADERSHIP

- **host lecturer**   March 2013 - June 2013
  Invited jointly with MSRA-er, Baidu-er as host lecturers to an offline Natural Language Processing Reading Club.

PUBLICATIONS

- **Component-Enhanced Chinese Character Embeddings**
  Yanran Li, Wenjie Li, Fei Sun, and Sujian Li. EMNLP 2015.
- **A Hierarchical Knowledge Representation for Expert Finding on Social Media**
  Yanran Li, Wenjie Li and Sujian Li. ACL 2015.
- **Query-focused Multi-Document Summarization:**
  Combining a Topic Model with Graph-based Semi-supervised Learning
  Yanran Li, Wenjie Li and Sujian Li. COLING 2014.

BOOK CHAPTERS

- **Natural Language Processing is Everywhere.**
  Yanran Li. Post & Telecom Press. July 2015.

SKILLS

- **Programming:** R, C/C++, Python, SQL, JavaScript.
- **Language:** Chinese (native), English (fluent).
